RISK DISCLAIMER

ARGENTIX (AGX) | www.theargentix.com | Effective date: 6 November 2026

Issuer: Juliette Group LTD (Company No. 17493479)
71–75 Shelton Street, Covent Garden, London WC2H 9JQ, United Kingdom
Contact: info@argentixgroup.com

1. Purpose and Scope

This Risk Disclaimer provides important information about risks associated with acquiring, holding, transferring or using Argentix (AGX), a token issued by Juliette Group LTD on the Solana blockchain. It should be read together with the applicable AGX crypto-asset white paper and any terms governing an offer or service. It does not replace those documents.

2. Nature of AGX

AGX is intended as a utility token providing access to services or benefits within the Argentix ecosystem, subject to their availability and applicable conditions. AGX does not confer equity, dividends, interest, profit-sharing rights or a contractual right to redemption for euros. The offer of AGX does not constitute an offer of, or solicitation to purchase, financial instruments. This description does not prevent competent authorities from applying a different legal classification.

3. Risk of Loss and Price Changes

The value of AGX may increase, decrease or become negligible. Purchasers may lose all or substantially all of the amount paid. Any stated offer price, including a euro-denominated sale price or promotional discount, is not a guarantee of future market value, price stability, redemption or resale value. AGX is not backed by a deposit guarantee or investor compensation scheme.

4. Liquidity and Transfer Risks

There may be no active or reliable secondary market for AGX. Listing on a trading platform, continued trading, sufficient liquidity or the ability to sell at a particular price is not guaranteed. Transfers may be delayed, fail or become impracticable due to network conditions, wallet compatibility or restrictions.

5. Blockchain and Technology Risks

AGX operates on Solana and may be affected by network congestion, outages, protocol changes, software defects, cyberattacks, transaction errors and third-party service failures. Blockchain transactions may be irreversible. Users are responsible for verifying wallet addresses, network compatibility and transaction details before sending tokens.

6. Wallets, Private Keys and Fraud

Loss, theft or compromise of private keys, recovery phrases or wallet credentials can result in permanent loss of access to AGX. Phishing, impersonation, malicious applications and fraudulent websites may also cause losses. Juliette Group LTD cannot guarantee recovery of tokens sent to an incorrect address or lost through third-party wallet failures.

7. Issuer Administrative Powers

The token configuration includes administrative capabilities, including the potential to mint additional AGX and to freeze tokens in circumstances relating to security, fraud or legal obligations. The exercise of such powers, or changes to or revocation of administrative permissions, may affect supply, transferability, usability or market perceptions of AGX. Additional issuance may dilute existing holders.

8. Development and Service Availability

Some planned Argentix products, features and services may still be under development. Their release dates, specifications, commercial availability and continued operation are not guaranteed. Features may be changed, delayed, restricted or discontinued, which may reduce or eliminate the practical utility of AGX.

9. Regulatory, Legal and Tax Risks

Laws and regulatory interpretations relating to crypto-assets may change across jurisdictions. Regulatory actions or compliance requirements may restrict offering, holding, transfer or use of AGX. Tax consequences depend on individual circumstances and local law. Users should seek independent legal or tax advice where appropriate.

10. Third-Party and Payment Risks

External payment providers, banking institutions, hosting services, wallet providers and other third parties may impose checks, fees, delays, limits or service interruptions. Juliette Group LTD does not control all such providers and cannot guarantee uninterrupted access to their services.

11. No Investment Advice or Guaranteed Return

Information published by Argentix is provided for general information about the project and its intended utility. It is not personalised investment, legal or tax advice, nor a promise of appreciation, income or financial return. Users should assess whether AGX is suitable for their intended use and should not spend funds they cannot afford to lose.

12. Statutory Rights and Governing Documents

Nothing in this disclaimer excludes or limits rights or liabilities that cannot lawfully be excluded or limited, including mandatory consumer rights and applicable rights under crypto-asset legislation. Where there is a conflict, applicable law and the governing offer documentation take precedence.

13. Contact and Updates

Juliette Group LTD may update this disclaimer to reflect material changes to AGX, its services or applicable law. The current version should be consulted before acquiring or using AGX. Questions may be sent to info@argentixgroup.com.
